Directors' Report

The Directors of your Company are pleased to present to you the financial results for the nine-months period ended March 31, 2025, based on the **consolidated** and **unconsolidated financial statements** for the said period.

Overview of Economy & Consolidated Financial Performance

The nine months of FY25 marked a continued stabilization of the economy, supported by targeted policy measures and improving external conditions. The current account recorded a surplus of USD 1.9 billion during 9M FY25, largely attributed to a historic rise in workers' remittances, which reached USD 4.1 billion in March 2025. Overall, remittances grew by 33% YoY, totaling USD 28.0 billion, up from USD 21.0 billion in the same period last year (SPLY).

A staff-level agreement (SLA) was reached between the IMF and Pakistan for the first review (~USD 1 billion) under the Extended Fund Facility (EFF) totaling USD 7 billion, and a new arrangement under the Resilience and Sustainability Facility (RSF) of USD 1.3 billion. Pending Executive Board approval, this is expected to strengthen external financing and support climate resilience and policy continuity.

Recently, Pakistan's Long-Term Foreign-Currency Issuer Default Rating (IDR) was upgraded from 'CCC+' to 'B-' with a "Stable" Outlook by Fitch Ratings, reflecting improved fiscal discipline, external stability, and structural reforms. This upgrade is anticipated to pave the way for Pakistan's access to international capital markets and contribute towards building investor confidence.

The State Bank of Pakistan (SBP), in its latest Monetary Policy Committee meeting, maintained the policy rate at 12%, indicating a flattening of the earlier monetary easing stance. This level of rates should stimulate economic activity while keeping inflation in check. CPI inflation continued its downward trend in March 2025, supported by declining food and energy prices. Inflation dropped to a six-decade low of 0.7% YoY in March 2025, a significant decline from 20.68% in March 2024. This sharp drop brought the average inflation rate of 9M FY25 to 5.3%, compared to 27.06% in the SPLY.

Large-Scale Manufacturing (LSM) continued to contract on a year-on-year basis, reflecting persistent challenges. The demand contraction due to lower growth will continue to persist for some time which could result in cement demand remaining at levels similar to last year.

On the fiscal side, tax collection during 9M FY25 reached PKR 8,464 billion, falling short of the PKR 9,167 billion target by PKR 703 billion. This shortfall reflects challenges in tax compliance and the sluggish pace of economic recovery. Despite these issues, economy showed signs of resilience due to ongoing reforms and gradual recovery in certain key sectors.

On a consolidated basis, your Company reported gross revenue of PKR 413.9 billion, up 12.8% from PKR 366.8 billion in the SPLY. This increase was driven mainly by improved performance from the Company and its subsidiary, Lucky Motor Corporation.

Furthermore, the Company's consolidated net profit was PKR 63.1 billion, of which PKR 5.8 billion was attributable to non-controlling interests. The net profit attributable to shareholders of the Company translated into an EPS of PKR 39.1 for 9M FY25, compared to PKR 34.1 in the SPLY, which is a 14.7% increase.

The consolidated financial performance of your Company for the nine months ended March 31, 2025, as compared to SPLY, is presented below:

PKR million except EPS	9M FY25	9M FY24	Change (%)
Gross Revenue	413,900	366,845	12.8%
Net Revenue	332,815	306,312	8.7%
Gross Profit	94,520	92,391	2.3%
GP as % of Net Revenue	28.4%	30.2%	(6.0%)
Operating Profit	74,795	74,958	(0.2%)
EBITDA	88,704	88,305	0.5%
Net Profit	63,137	55,651	13.5%
NP (Attributable to Owners of the holding company)	57,314	50,926	12.5%
Earnings Per Share (PKR)*	39.12	34.10	14.7%

**EPS has been restated to reflect the 5-for-1 stock split (explained in detail in the EPS section below)*

The Company's net profit for 9M FY25 has shown improvement compared to SPLY, primarily driven by the increased profitability of foreign cement operations, Lucky Motor Corporation and Lucky Core Industries.

Local Cement Operations

During 9M FY25, the Company recorded an increase of 14% in gross sales revenue compared to SPLY. This growth was primarily attributed to a significant rise in export volumes, which surged by 76% year-over-year, offsetting a 9% decline in domestic sales volumes. The drop in local sales was mainly driven by reduced demand and an increase in taxes and levies. The cement industry's local sales also declined by 7% due to the same reasons.

Foreign Cement Operations

The cement production facilities in Iraq and Congo, operating under joint venture agreements, continued to enhance the Company's profitability with improved margins. Cement sales showed an upward trajectory both in Iraq and Congo. Moreover, full capacity utilization at Najmat-Al-Samawah, in Iraq, further improved your Company's profitability.

Polyester, Soda Ash, & Chemicals

Lucky Core Industries' (LCI) net turnover for the nine months under review recorded at PKR 92.1 billion, which is 1% higher compared to SPLY. Net turnover of the Pharmaceuticals and Polyester businesses increased by 74% and 5% respectively as compared to the SPLY, whereas the Soda Ash, Animal Health and Chemicals & Agri Sciences business witnessed a decline of 17%, 12% and 5% respectively as compared to the SPLY.

The operating result for the nine months under review stood at PKR 13.6 billion, which is 8% higher than the SPLY. The Pharmaceuticals and Polyester businesses delivered higher operating results of 122% and 31% respectively as compared to SPLY. The operating performance of the Animal Health business remained almost in line with the SPLY, whereas the Soda Ash and Chemicals & Agri Sciences businesses posted a decline in Operating Results of 15% and 11% respectively as compared to the SPLY.

Growth in the Pharmaceuticals business performance was supported by the seamless integration of the assets acquired from Pfizer group entities, marking a significant milestone for Lucky Core Industries. The base business performance was driven by recovery in margins benefiting from an improvement and stability in the value of the Pak Rupee, inflation-related price adjustments of certain non-essential medicines, improvement in sales mix, and continued focus on operational efficiencies.

The Polyester business' improved performance was driven by elevated global freight costs in the first half of the FY 24-25, which made imported PSF more expensive, improved sales of specialized variants and improved operational efficiencies. The Soda Ash Business continued to be impacted by subdued local demand across major segments. Additionally, export sales suffered significantly due to lower export prices and higher freight costs making export sales economically unviable. The Chemicals & Agri Sciences and Animal Health businesses faced challenges on the demand front driven by weak consumer purchasing power.

Automobiles & Mobile Phones

The automobile sector demonstrated an improvement in volumes during the nine months of FY25 compared to the SPLY on the back of stable PKR to USD exchange rate, the State Bank of Pakistan's decision to reduce the discount rate in recent monetary policy statements, decline in inflation, and lower fuel prices. The sector observed an overall volume increase of around 55% compared to last year.

Due to the imposition of 18% GST effective 1st July 2024, smartphone imports registered a decline of 11% in volume and 9% in value in the nine months of FY25 compared to the SPLY.

Power

Lucky Electric Power Company Limited (LEPCL), a 660 MW ultra-super critical coal fired power plant, commenced its commercial operations in March 2022 and is currently in its third year of operation. The plant has maintained 100% commercial availability throughout the current period and also underwent a scheduled outage in January 2025.

Cement Industry & Company's Performance – Unconsolidated

During 9M FY25, Pakistan's domestic cement sales volumes recorded a decline of 6.5%, decreasing to 27.5 million tons from 29.4 million tons in the SPLY. In contrast, exports demonstrated robust growth, surging by 28.1% to 6.5 million tons compared to 5.1 million tons in the SPLY. Consequently, the total industry sales volume declined by 1.4%, reaching 34.0 million tons in 9M FY 2025 compared to 34.5 million tons in the SPLY. The decline in domestic volumes can primarily be attributed to a slowdown in mega infrastructure projects, as well as a substantial increase in Federal Excise Duty (FED), royalties, and other applicable taxes on cement industry.

Against the backdrop of the industry's overall performance, your Company's results showed moderate improvement, with total sales volumes increasing by 10.0% to 7.1 million tons in 9M FY25, compared to 6.4 million tons in the SPLY. Local sales volumes, however, declined by 9.1%, reducing to 4.5 million tons in 9M FY25 from 5.0 million tons in 9M FY24. Conversely, export volumes experienced a sharp growth of 75.6%, rising to 2.5 million tons during the nine-month period compared to 1.5 million tons in the SPLY. This significant growth in exports was driven by improved global demand as well as access to new export markets.

Cement Production & Sales Volume Performance

**EPS has been restated to reflect the 5-for-1 stock split (explained in detail in the EPS section below)*

Revenue

During the nine months period under review, your Company achieved a 14.5% increase in overall gross revenue compared to the SPLY. Local sales revenue rose by 8.0%, reaching PKR 108.0 billion compared to PKR 100.0 billion in SPLY whereas export sales revenue experienced significant growth, surging by 55.3% to PKR 24.3 billion from PKR 15.6 billion in SPLY.

Cost of Sales

Cost of sales increased by 8.4%, reaching PKR 62.5 billion, compared to PKR 57.7 billion in the SPLY. This rise was largely driven by inflationary pressures, increase in royalty on minerals and energy costs.

Gross Profit

The Company's gross profit margin remained stable at 34%. This was driven by a consistent focus on cost control, operational efficiency, and continued investment in renewable energy initiatives.

Other Income

During 9M FY25, the dividend income received by your Company from its subsidiaries was PKR 12.7 billion vs PKR 4.7 billion during the SPLY.

Subsidiary/ Associate PKR Billion	3Q FY25	2Q FY25	1Q FY25	4Q FY24	3Q FY24	2Q FY24	1Q FY24

Apart from the above, other income primarily consists of returns from short-term investments in Islamic mutual funds with a credit rating of AA and above.

Net Profit

Your Company achieved a profit before tax of PKR 38.3 billion during 9M FY25 as compared to PKR 27.8 billion reported during the SPLY, reflecting a significant year-on-year improvement.

Accordingly, an after-tax profit of PKR 27.3 billion was achieved during the nine-month period under review, reflecting a growth of 47% as compared to PKR 18.7 billion reported during the SPLY.

Earnings Per Share (EPS)

The earnings per share of your Company for 9M FY25 stood at PKR 18.67 in comparison to PKR 12.49 reported during the SPLY.

As per requirements of International Financial Reporting Standards (IFRS) the Earnings per Share of the current and all prior periods presented has been restated based on new number of shares i.e., 1,465,000,000 as a result of stock split explained below.

Stock split – Sub division of company's share capital

The Board of Directors of the Company recommended a 5-for-1 stock split on February 20, 2025, which was subsequently approved by the shareholders at an Extraordinary General Meeting (EOGM) held on March 18, 2025. Pursuant to the stock split, the face value of the Company's shares has been reduced from PKR 10 per share to PKR 2 per share. Consequently, the total number of issued shares has increased from 293,000,000 to 1,465,000,000. Trading in the post-split shares will commence at the Pakistan Stock Exchange (PSX) on April 28, 2025.

This strategic initiative is aimed at sharing the success achieved over the years by your company with a wider investor base, making the company's shares more accessible.

Growth & Expansion

Strategic Expansion in the Copper and Gold Mining

National Resources (Pvt.) Limited (NRL), a joint venture company (33.33% equity) has acquired two mining leases in Baluchistan on 13th October, 2023— one with copper-gold mineralization potential and the other with prospects for Lead-Zinc. Mobilization at both sites is underway, with early-stage exploration activities progressing, showing encouraging initial results.

Clinker production capacity expansion of 1.82 million tons per annum and Cement production capacity expansion of 0.65 million tons per annum in Samawah, Iraq

The Company has completed construction activities for the clinker production capacity expansion project of 1.82 million tons per annum in Samawah, Iraq, and kiln firing is expected shortly. In view of the growing cement demand in Central and Northern Iraq, the Company also initiated addition of a 0.65 million tons per annum cement grinding mill at the same site. An EPC contract has been executed, with completion targeted in 1H FY26.

Renewable Energy Initiatives of Lucky Cement

The Company remains firmly committed to energy conservation and the integration of sustainable, green energy solutions. A state-of-the-art battery storage system is being installed at the Company's Karachi plant to improve the efficiency and optimal use of renewable energy generation. Currently, 55% of our power generation capacity for self-consumption comes from renewable sources, including Solar, Wind and Waste Heat Recovery at both Karachi and Pezu plants.

The commissioning of a Wind Power Plant at the Company's Karachi plant during 2Q FY25 underscores our dedication to sustainability and reducing reliance on imported fuels. These renewable energy investments not only promote environmental stewardship but also deliver cost efficiencies.

Corporate Social Responsibility

Your Company remains steadfast in its commitment to sustainable and inclusive growth. Our CSR initiatives are aligned with national development priorities and sustainability goals, reinforcing our role in creating long-term value for stakeholders while contributing meaningfully to society. We focus our efforts on key pillars: quality education, women empowerment, healthcare, and environmental conservation.

Education / Scholarships:

Investing in education remains a cornerstone of our social strategy. Your Company continued the scholarship program in District Lakki Marwat and continues to offer merit-based scholarships at leading academic institutions across Pakistan. We collaborate with prominent non-profit organizations such as the Shahid Afridi Foundation, Million Smiles Foundation, and The Citizens Foundation to expand access to quality primary education in underserved regions.

Women's Empowerment:

The Company is deeply committed to gender equity and the empowerment of women through education. In partnership with Zindagi Trust, we continue to support the transformation of government girls' schools in Karachi, fostering inclusive learning environments and expanding educational access for young girls from marginalized communities.

Health Initiatives:

Ensuring access to quality healthcare remains a priority. Through financial support to the Aziz Tabba Foundation, we contribute to the provision of advanced, affordable medical care to the public through renowned healthcare institutions delivering healthcare services to all segments of society.

Your Company generously contributed to Al-Shifa Trust, a reputable NGO in Pakistan dedicated to the prevention and control of blindness by delivering high-quality, sustainable eye care services that are accessible and affordable to all, irrespective of gender, race, color, or religion.

Environmental Conservation:

Environmental responsibility is embedded in our operational philosophy. We continue to implement eco-friendly initiatives such as tree plantation drives near our production facilities, aiming to reduce dust emissions and enhance environmental quality in surrounding communities.

Social Empowerment:

Your Company also extended generous support to Saylani Welfare and Chhipa Welfare; two well-regarded non-profit entities actively engaged in a broad range of humanitarian services across Pakistan. Their efforts in areas such as emergency response, food distribution, healthcare, and social welfare play a vital role in uplifting underserved

communities and promoting social well-being. Through this contribution, your Company reaffirms its commitment to supporting impactful initiatives that foster a more compassionate and resilient society.

Your Company also supported a well-established NGO dedicated to community welfare, helping expand its efforts in areas such as education, healthcare, and livelihood development. This reflects our ongoing commitment to inclusive and sustainable community upliftment.

Outlook

Pakistan's near-term economic outlook remains stable due to encouraging macroeconomic trends such as currency stability, lower inflation, and a current account surplus. With inflation on a downward trajectory, there is a possibility that the SBP may consider further policy rate cuts. However, sustaining growth in value-added exports will depend on resolving supply chain bottlenecks and lowering energy prices. A reduction in energy costs will be key to supporting industrial competitiveness and facilitating a broader economic recovery. While the implications of the newly proposed U.S. tariffs are still unfolding that said, the ongoing decline in global commodity prices is expected to offset potential challenges, limiting the overall negative impact.

The government's continued focus on fiscal discipline and structural reforms will be important in building investor confidence and maintaining macroeconomic stability. While challenges remain on the external front, the outlook for the economy is cautiously optimistic, with potential for moderate growth.

Local Cement Operations

While the reduction in interest rates and easing inflation are expected to support medium-term demand, long-term growth will hinge on a sustained revival in domestic economic activity and the reactivation of large-scale infrastructure projects.

Foreign Cement Operations

The commissioning of a new clinker production line, along with the upcoming cement grinding plant, is expected to enhance the Company's market share in Iraq. Additionally, surplus clinker from the facility will be sold within the domestic Iraqi market.

With strong demand anticipated, the Company's foreign operations are well-positioned to capitalize on current and enhanced capacities in all three locations.

Polyester, Soda Ash, & Chemicals

Despite the ongoing challenges, LCI is well-positioned to handle future uncertainties due to its strong balance sheet and diversified portfolio which is aligned with Pakistan's core economy. The Company continues to pursue strategic growth initiatives, optimizing capital allocation for both organic and inorganic expansion. The Company conducts regular strategic reviews to assess and develop proactive strategies to mitigate risks.

Looking ahead, the Company will continue to focus on identifying new revenue streams, optimizing operating costs, and maximizing shareholder returns to ensure a resilient and sustainable future.

Automobiles & Mobile Phones

The outlook for the automobile sector is gradually shifting positively compared to previous periods. Leveraging operational optimization and localization strategies, Lucky Motor Corporation (LMC) is positioned to benefit by safeguarding profit margins and enhancing competitiveness in a recovering market.

While higher taxation posed challenges for the mobile phone sector, we still see a positive outlook, as there remains a strategic opportunity, particularly in the low-cost smartphone segment, which is expected to capture a larger market share. In response, LMC has shifted its focus toward producing and promoting affordable smartphones, aiming to strengthen its market position by aligning with the increasing demand for cost-effective mobile phones.

Power

The power sector continues to face challenges, primarily driven by circular debt and transmission constraints. However, recent government initiatives—such as plans to resolve the circular debt, reduce tariffs, and enhance grid infrastructure—are commendable steps toward sectoral stability and improved offtake. With the seasonal rise in temperatures driving increased cooling requirements, electricity demand is expected to grow accordingly. Post commencement of Thar coal supply next year, LEPCL will be able to improve its merit order and further reduce the cost of electricity supplied to the national grid.

LEPCL remains committed to upholding the high standards of health, safety, and environmental (HSE) practices, reinforcing its focus on safe and sustainable operations.

Your Company's strong financial position and free cash flow generating ability are anticipated to further support its vision to maintain its leadership position in Pakistan and to capitalize on new investment opportunities to maximize shareholders' value.

Acknowledgment

The Board would like to thank all our stakeholders, employees, customers, suppliers, shareholders, and bankers for their support. The confidence and goodwill of the stakeholders have allowed the Company to sustain and grow over the years.

We continue to pray to Allah for the success of the Company, the benefit of all stakeholders, and the prosperity of the Country in general.

On behalf of the Board

LUCKY CEMENT LIMITED

Notes to the Unconsolidated Condensed Interim Financial Statements

For the Nine months ended March 31, 2025 (Un-audited)

1 THE COMPANY AND ITS OPERATIONS

- 1.1 Lucky Cement Limited (the Company) was incorporated in Pakistan on September 18, 1993 under the Companies Ordinance, 1984 (now the Companies Act, 2017) and is listed on the Pakistan Stock Exchange (PSX). The principal activity of the Company is manufacturing and marketing of cement.

The registered office of the Company is located at Pezu, District Lakki Marwat in Khyber Pakhtunkhwa and the corporate office is situated at Muhammad Ali Housing Society, A. Aziz Hashim Tabba Street in Karachi. The Company has two production facilities; one at Pezu, District Lakki Marwat in Khyber Pakhtunkhwa and the other at Main Super Highway in Karachi, Sindh. Further, the Company's liaison offices are situated in Islamabad, Quetta, Multan, Faisalabad, Lahore and Peshawar.

- 1.2 These unconsolidated condensed interim financial statements are separate financial statements of the Company in which investments in subsidiaries and associates have been accounted for at cost less accumulated impairment losses, if any.

2 STATEMENT OF COMPLIANCE

- 2.1 These unconsolidated condensed interim financial statements have been prepared in accordance with the accounting and reporting standards applicable in Pakistan for interim financial reporting which comprise of:

- International Accounting Standard 34, 'Interim Financial Reporting' (IAS 34), issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017 (the Act); and
- provisions of and directives issued under the Act.

Where the provisions of or directives issued under the Act differ with the requirements of IAS 34, the provisions of and directives issued under the Act have been followed.

- 2.2 These unconsolidated condensed interim financial statements do not include all the information and disclosures required in the unconsolidated annual audited financial statements, and should be read in conjunction with the Company's unconsolidated annual audited financial statements for the year ended June 30, 2024.

3 MATERIAL ACCOUNTING POLICY INFORMATION

- 3.1 The accounting policies and methods of computation adopted in the preparation of these unconsolidated condensed interim financial statements are consistent with those applied in the preparation of the unconsolidated annual audited financial statements for the year ended June 30, 2024.

3.2 Changes in accounting standards, interpretations and amendments to accounting and reporting standards

- (a) **Amendments to published accounting and reporting standards which became effective during the period ended March 31, 2025:**

There were certain amendments to accounting and reporting standards which became mandatory for the Company during the period. However, these amendments did not have any significant impact on the financial reporting of the Company and, therefore, have not been disclosed in these unconsolidated condensed interim financial statements.

The Company's financial risk management objectives and policies are consistent with those disclosed in the Company's unconsolidated annual audit financial statements for the year ended June 30, 2024.

- (b) **Amendments to published accounting and reporting standards that are not yet effective:**

There are certain new standards and amendments that will be applicable to the Company for its annual periods beginning on or after July 1, 2025. The new standards include IFRS 18 Presentation and Disclosure in Financial Statements and IFRS 19 Subsidiaries without Public Accountability: Disclosures both with applicability date of January 1, 2027 as per IASB. These standards will become part of the Company's financial reporting framework upon adoption by the SECP. The overall amendments include those made to IFRS 7 and IFRS 9 which clarify the date of recognition and derecognition of a financial asset or financial liability which are applicable effective January 1, 2026. The Company's management at present is in the process of assessing the full impacts of these new standards and the amendments to IFRS 7 and IFRS 9 and is expecting to complete the assessment in due course.

4 SIGNIFICANT ACCOUNTING ESTIMATES, JUDGEMENTS AND ASSUMPTIONS

The preparation of unconsolidated condensed interim financial statements requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts. Actual results may differ from these judgements, estimates and assumptions.

The accounting estimates and judgement made by the management in the preparation of these unconsolidated condensed interim financial statements are the same as those applied in the unconsolidated annual audited financial statements of the Company for the year ended June 30, 2024.

15 FINANCIAL RISK MANAGEMENT AND FINANCIAL INSTRUMENTS

15.1 Financial risk factors

The Company is exposed to market risk (including return rate risk, currency risk and other price risk), credit risk and liquidity risk. The Company's finance and treasury departments oversee the management of these risks.

There have been no changes in the risk management policies during the period, consequently these unconsolidated condensed interim financial statements do not include all the financial risk management information and disclosures required in the annual financial statements.

Fair value hierarchy

The table below analyses financial instruments carried at fair value by valuation method. The different levels have been defined as follows:

- quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1);
- inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly or indirectly (level 2); and
- inputs for the asset or liability that are not based on observable market data (level 3).
